Base de données en panel contenant les variables suivantes pour chaque paire de pays d'origine (200 pays) et pays de destination (28 pays européens) des demandeurs d'asile, sur la période 2010 – 2016.

Note : Dans la base de données, le suffixe « _o » désigne si la variable fait référence au pays d'origine et le suffixe « _d » si elle fait référence au pays de destination

Nom de la variable	Label de la variable	Définition de la variable
cname	Name of the country	Official name of the country
region	Region of the country	Region of the country (EU classification)
year	Year of observation	Data records yearly information for the 2010 – 2016 period
number_app	Number of asylum applications	Number of asylum applications
number_pos	Number of refugee status granted	Number of asylum seekers who were granted the refugee status (Geneva convention)
number_neg	Number of refugee status denied	Number of asylum seekers who were denied the refugee status (Geneva convention)
<i>For the last 3 variables, the suffix “_tot” refer to all applicants, the suffixes “_h” and “_f” refer respectively to male and female applicants and the suffixes “_013”, “1417”, “1834”, etc. refer respectively to the age range of the applicants</i>		
diasp	Diaspora in the destination country	Total number of migrants from the origin country who live in the destination country
<i>For the last variable, the suffix “_tot” refer to the total diaspora, the suffixes “_male” and “_female” refer respectively to the male and female diasporas, the suffixes “_014”, “_1534”, etc. refer respectively to diasporas by age categories and the suffixes “_dos1”, “_dos15”, etc. refer respectively to diasporas by duration of stay</i>		
hdi	Human Development Index	Index of human development ranging from 0 to 1
civviol	Magnitude score of episode(s) of civil violence	Magnitude score of episode(s) of civil violence ranging from 0 (no) to 6 (high)
ethviol	Magnitude score of episode(s) of ethnic violence	Magnitude score of episode(s) of ethnic violence ranging from 0 (no) to 6 (high)
intviol	Magnitude score of episode(s) of international violence	Magnitude score of episode(s) of international violence ranging from 0 (no) to 6 (high)
fh_civlib	Civil liberties	Freedom House index of civil liberties ranging from 1 (most free) to 7 (least free)
fh_polity2	Level of democracy	Freedom House index of democracy ranging from 0 (least democratic) to 10 (most democratic)
fh_polrights	Political rights	Freedom House index of political rights ranging from 1 (most free) to 7 (least free)
ptscale	Political terror scale	Amnesty International index of political terror ranging from 1 (no terror) to 5 (high terror)

conflict_type1	Interstate armed conflict	Number of interstate armed conflict (between two or more states)
conflict_type2	Internal armed conflict	Number of internal armed conflict (between state and internal opposition groups) without foreign intervention
conflict_type3	Internationalized internal armed conflict	Number of internal (between state and internal opposition groups) armed conflict with foreign intervention
battle_death	Battle related deaths	Number of people (military and civilians) killed in an armed conflict
pop	Population	Total population in millions
gdpcap	GDP per capital	GDP per capita, in current US\$
unemp	Unemployment, total	Rate of unemployment (% of the total labor force)
emp	Employment to population ratio, 15+, total	Total rate of employment (% of the labor force aged 15+)
more_restrict_pol	More restrictive asylum policy	Dummy equal to 1 if the destination country implemented a more restrictive destination policy
less_restrict_pol	Less restrictive asylum policy	Dummy equal to 1 if the destination country implemented a less restrictive destination policy
contig	1 for contiguity	Dummy equal to 1 if the origin and destination countries share a common border
comlang_off	1 for common official language	Dummy equal to 1 if the origin and destination countries share a common official language
colony	1 for pairs ever in colonial relationship	Dummy equal to 1 if the origin and destination countries have ever been in a colonial relationship
distcap	Distance between capital	Geodesic distance between the capital cities of the origin and destination countries (in km)
comcurr	1 for common currency	Dummy equal to 1 if the origin and destination countries share a common currency
comrelig	1 for common religion	Dummy equal to 1 if the origin and destination countries share a common (main) religion
